# KEY TO PAGE NUMBERS

January .....	1 to 204	July .....	893 to 952
February .....	205 to 436	August .....	953 to 1068
March .....	437 to 612	September .....	1069 to 1188
April .....	613 to 708	October .....	1189 to 1292
May .....	709 to 796	November .....	1293 to 1404
June .....	797 to 892	December .....	1405 to 1520

An Asterisk (\*) Denotes a Feature Article in the Magazine.

## A

"AC"—A New Corrosion Test.....	1092
Alcoa Anti-Trust Suit Ends.....	973
Alcoa Uses Natural Gas as Power Source	913
Alexander, B. H., and Balluffi, R.: *Experiments on the Mechanism of Sintering.....	1219
Alexander, B. H., and Rosi, F. D.: *Measurements on the Rate of Secondary Recrystallization in High Purity Silver.....	1217
Alford, Newell G.: Appreciation of Samuel Alfred Taylor.....	1287
*All-Basic Open Hearth, European and American.....	824, 921
Allegheny-Ludlum Steel Corp. Expan- sion.....	913
Aluminum and Aluminum Alloys: *aluminum-killed steel.....	830
*annealing texture in rolled strip.....	1215
*bonding to copper.....	920
*deoxidizer.....	1311
*gaskets.....	839
*grain boundary migration.....	468A
Kaiser increases capacity.....	1085
*mold coatings.....	842
natural gas power source.....	913
*rolling texture.....	1214
Aluminum Foil-Laminate Gasket.....	839
American Cast Iron Pipe Co.: *Effect of Melting Practice on Hydro- gen.....	30, 245
American Institute of Mining and Met- allurgical Engineers.....	
Amendments to Bylaws.....	727
All-Institute Divisions Officers.....	1397
Annual Meeting Committees.....	1179
Annual Meeting Field Trips, 1951.....	1514
Annual Meeting Highlights.....	454
Annual Meeting Paper Deadline.....	1178
Annual Meeting 1950 Program.....	12
Annual Meeting 1951 Program.....	1509
Associate Members.....	970
Awards to be Presented.....	1509
Bessemer Committee to Meet.....	1511
Board Meeting Dates.....	628D
Brownell Receives Rand Medal.....	970
Budget and Bylaw Changes.....	458
Budget Set at \$477,500.....	815
Bush to Receive Fritz Medal.....	1086
Changes Admissions Procedures.....	815
Changes in Journals.....	16D
*Coal Preparation Revised.....	1398
Committee Appointments.....	16E
Karl T. Compton Wins Hoover Medal.....	1398
Deficit in 1950.....	1511
"De Re Metallica" Reprinted.....	1397
Directory.....	1178, 1514
Dues Payable Jan. 1, 1951.....	1511
Election of Officers.....	16E
Election of Officers and Directors.....	628D
Electric Furnace Steel Committee Eighth Annual Conference.....	1310, 1429
Executive and Financial Committee Meeting.....	628D
Fall Meeting—1951.....	973
Fall Meeting, Program.....	1177
J. L. Head Elected Chairman of Li- brary Board.....	1518
IMD Auxiliary Publications Committee.....	1514
IMD Fall Meeting.....	912
IMD Fall Meeting Program.....	1208
IMD at Metal Show.....	971, 1207, 1512
Initiation Fee Payments.....	1518
Journals on Microfilm.....	971
A. B. Kinzel to Deliver Howe Lecture.....	1398
Liberalizes Policy.....	972
Local Section for Mexico.....	1398
Mathewson Retires from Yale.....	970
C. W. McCoy Wins Student Award.....	1398
Members Affiliated with Local Sections.....	1514
Members Qualify for Legion of Honor.....	1511
Membership Drive.....	1178
Metals Branch Nominations.....	911
Metals Transactions available.....	973
Microfilming of Journals.....	726
A. Nadai Completes Monograph.....	1398
National Open Hearth, Blast Furnace, Coke Oven and Raw Material Conference.....	
program.....	467
highlights.....	816
New Member Quota.....	912
Nominating Committee for 1952 Offi- cers.....	1510
Nominations for Officers.....	726, 911, 972
Proposed Bylaw Amendments on Members and Elections.....	815
Publications Committees.....	1397
Publication Prices Unchanged.....	1397
Rand Medal to James Draper Francis Research in Progress Session for Annual Meeting.....	1285
Revises Book Prices.....	1510
Service Inductees on Inactive List.....	815
A. J. Shaler and C. S. Barrett Hon- ored.....	1397
Student Prizewinners, 1949.....	1511
Student Chapter Recognition.....	458, 1398

Technical Papers Increase.....	910
Transactions Volumes.....	727
C. E. Weed to Get Saunders Medal.....	1398
Woman's Auxiliary Dinner.....	1285
American Steel Foundries: *Investiga- tion of New Special Deoxidizers.....	1311
An Optimist at 83.....	1182
*Annealing Texture in Rolled Alu- minum Strip.....	1215
*Application of Radioactive Tracers to the Study of Metal-Solution Reactions.....	1220
*Application of Superimposed Precipi- tators.....	656
Armco Open Hearth Elevators Speed Furnace Charging.....	973
Armco Steel Corp.: *Faster Open Hearth Charging.....	744
*Flow and Velocities of Air and Waste Gases in Open Hearth Furnaces.....	976
Averbach, B. L. and Roberts, C. S.: *Yielding in Plain Carbon Steels.....	1211

## B

Bakalar, I. D.: *On the Temperature Dependence of Self-Diffusion in Alpha Iron.....	1213
Balluffi, R. and Alexander, B. H.: *Ex- periments on the Mechanism of Sintering.....	1219
Barry, F. M.: Appreciation of William B. Price.....	820
Bath Composition: *Uniformity in Elec- tric Furnace.....	16F

### PAGES IN EACH ISSUE

January .....	41-204	July .....	929-952
February .....	261-436	August .....	989-1068
March .....	485-612	September .....	1097-1176
April .....	661-708	October .....	1221-1284
May .....	757-796	November .....	1317-1396
June .....	845-892	December .....	1445-1508

American Institute of Mining and Metallurgical Engineers  
Transactions of the Metals Branch,

A		Page
Aborn, R. H.: Discussion on a Metallographic Description of Fracture in Impact Specimens of a Structural Steel .....	1030	
Acid Conditioning of Metallurgical Smoke for Cottrell Precipitation .....	692	
Activation Energy for Recrystallization in Rolled Copper .....	887	
Active Slip Systems in the Simple Axial Extension of Single Crystalline Alpha Brass. Discussion .....	1037	
Activity of Liquid Silver-Silicon Alloys .....	1282	
Activity of Sulphur in Liquid Steel; The Influence of Copper .....	1389	
Adams, J. Q.: Discussion on Electrical Resistivity Measurements on Iron-Silicon Compacts Prepared by the Powder Metallurgy Procedure .....	1048	
Aging: hydrogen elimination by .....	1321	
in metals. Discussion .....	1039	
Aging Behavior of a Zinc Alloy Containing 25 pct Manganese, 15 pct Copper, 0.1 pct Aluminum .....	139	
Aging Characteristics of Magnesium-Lithium Base Alloys .....	1277	
Air pollution practice for recovery of baghouse practice for recovery of metallurgical fumes .....	793	
Alexander, B. H., and Rhines, F. N.: Dendritic Crystallization of Alloys .....	1267	
Alloy Systems: Chromium-carbon .....	41	
uranium-aluminum and uranium-iron .....	182	
uranium-tungsten, uranium-tantalum and tungsten-tantalum .....	195	
Alloys: binary, undercooling of minor liquid phases .....	136	
ternary .....	514	
quaternary .....	539	
Alloys of Copper and Iron .....	1486	
Alloys of Titanium with Carbon, Oxygen, and Nitrogen .....	1261	
Aluminum and aluminum alloys: aging behavior of zinc alloy .....	139	
Bayer process .....	105, 661	
beta copper, transformations in. Discussion .....	1066	
cold worked, effect of prestraining temperatures on recovery of. Discussion .....	1364	
cold worked, recovery of. Discussion .....	1363	
dendrite arm spacing .....	1268	
effect of alloying elements on plastic properties .....	933	
effect on magnesium-lithium alloys .....	945	
extractive metallurgy of .....	661	
films, oriented arrangements of, on ionic substrates. Discussion .....	1062	
grain boundary migration in .....	103	
high-purity: recrystallization and coarsening texture. Discussion .....	1057	
single crystals, plastic behavior of .....	1159	
hydrogen solubility in .....	1237	
interface energies. Discussion .....	1026	
internal friction of cold-worked .....	575	
iron-aluminum-oxygen phase distribution .....	423	
magnesium-lithium, age hardening .....	1278	
oxygen solubility in liquid iron containing .....	414	
production in electrolytic cells .....	105	
recrystallization and grain growth determined by measurements of internal friction .....	581	
recrystallization and microstructure of aluminum killed deep drawing steel. Discussion .....	1059	
single crystals, transverse bending. Discussion .....	1039	
size effects in quenching. Discussion .....	1050	
strain markings .....	1126	
undercooling liquid phase .....	136	
uranium, alloy system .....	182	
phase diagram .....	184	
American Brass Co.: Alloys of Copper and Iron .....	1486	
American Electro Metal Corp.: Microstructure of Iron Silicon Alloys as Developed by Powder Metallurgy Process .....	354	
American Smelting and Refining Co.: Acid Conditioning of Metallurgical Smoke for Cottrell Precipitation .....	692	
Conditioning Dwight-Lloyd Gases to Increase Bag Life .....	608	
Improved Automatic Smoke Sampler .....	610	
Modern Baghouse Practice for the Recovery of Metallurgical Fumes .....	792	
American Zinc Oxide Co.: Catbeck Process for Refining Zinc Oxide .....	757	
Ammonia: leaching of nickel and cobalt ores .....	67	
Analysis of Interstitial Diffusion Using Activity Methods. Discussion .....	1024	
Anderson, E. A.: Discussion on Structure and Nature of Kink Bands in Zinc .....	1022	
Anderson, R. A., Dorn, J. E., and Tietz, T. E.: Effect of Prestraining Temperatures on the Recovery of Cold Worked Aluminum. Discussion .....		
Andrew, K. F., and Gulbransen, E. A.: Kinetics of Reactions of Columbium and Tantalum with O <sub>2</sub> , N <sub>2</sub> , and H <sub>2</sub> .....		
Kinetics of the Reactions of Titanium with O <sub>2</sub> , N <sub>2</sub> , and H <sub>2</sub> . Discussion .....		
Kinetics of the Reactions of Zirconium with O <sub>2</sub> , N <sub>2</sub> , and H <sub>2</sub> . Discussion .....		
Annealing: effect in magnetic field upon iron-cobalt and iron-cobalt-nickel alloys .....		
zinc and deformation processes, experimental survey .....		
Annealing twins, formation of .....		
Annealing Twins in Copper and 70-30 Alpha Brass. Discussion .....		
Ansel, G.: Discussion on Liquid Solubility of Manganese in a Magnesium-aluminum-tin Alloy .....		
Antimony and antimony alloys: dendrite arm spacing .....		
selenium alloys .....		
titanium, binary, properties of .....		
Arsenic: effect on age hardening of lead .....		
atmosphere control in steelmaking .....		
Aust, K. T., and Pidgeon, L. M.: Solubility of Titanium in Liquid Magnesium. Discussion .....		
Austenite: carbon migration under influence of direct current .....		
diffusion coefficient of carbon in .....		
growth as related to prior structure. Discussion .....		
spherulite from, grain size .....		
Austenite Formation During Tempering and Its Effects on Mechanical Properties .....		
Austenitic steel: sampling for hydrogen .....		
Averbach, B. L.: Plastic Deformation in the Rolling Process .....		
Recovery and Recrystallization in Brass. Discussion .....		
Discussions: on Free Energy Change Accompanying the Martensite Transformation of Steels .....		
on the Study of Grain Boundaries with the Electron Microscope .....
